IMPACT OF SOCIAL MEDIA IN STUDENT LIFE

Suresh Mukhopadhyay

IMPS, West Bengal

***Abstract:** Social Networking is helpful among students in ways such as communicating about projects and tasks in school but some students cross the boundaries of using such sites. Some use it for gambling purposes. Misuse of such sites are what makes the social networking world hazardous to all people involved in it especially to students of minor ages. What's more harmful is that it seldom leads to the destruction of the student's foundation for their future – which is education.*
